

GOOD OLD BOAT™

THE SAILING MAGAZINE FOR THE *REST* OF US!

Thanks for purchasing our *Good Old Boat* 2008 back issue download! We're pleased to provide you with this resource, as most of the issues contained in this download are out of print. The documents in these files are in Adobe PDF format and are compatible with Acrobat Reader version 5.0 and higher. We've gone to great lengths to make sure that what you see in these PDF documents accurately represents all six issues produced in 2008.

A few comments about this download and its contents:

- Please do not copy these files or their contents to distribute to friends (or anyone else for that matter). All material contained here is copyrighted by *Good Old Boat* magazine. After all, this is how we make our living and you would like for us to stick around in the future, wouldn't you?
- The size of the pages in our magazine is 8.125 x 10.875 inches. Some content might be clipped at the margins if you print it at full size on 8.5- x 11-inch paper. You can get around this by printing at a slightly reduced size.

A few notes on navigation:

- We've included a searchable index of all the articles in these six issues. You can go straight to any article by clicking on its entry in this index. The index is organized by issue and page number (it's linked below on this page). And you can go directly to any article in an issue just by clicking on that article's entry in the table of contents. If your viewer has a "Bookmarks" tab on the side near "Thumbnails" or "Pages," you'll see we've bookmarked the table of contents for you in each issue.
- When moving around from document to document using links, it's possible to get back to where you left off with a previous issue. PC and Mac users will find that each new issue opens in a separate window so they can easily return to the previous issue.
- All text in these documents is fully searchable, with the exception of some text in diagrams or ads.
- At the side of most PDF viewers there is a thumbnail page display (called either "Thumbnails" or "Pages"). Clicking on one of these pages is a good way to get around a big magazine document.
- Try the magnifying glass in the PDF viewer toolbar. Clicking with it makes the screen image larger. If you use the Control key (Windows) or Option key (Mac) when clicking with it, the image will get smaller.
- Often when you see web links, you can click on that text to direct your web browser to go to that link. Since this is a historical document, many links may have changed.

We hope you get as much enjoyment from reading through these PDFs as we did gathering these six issues of *Good Old Boat* magazine from 2008! To start, click on any of the links below.
